SUMMARY

I am a Bachelor of Computer Applications (BCA) graduate with hands-on experience as a Web Developer. Starting my journey as an intern, I quickly demonstrated my skills and was promoted to a Web Developer role due to my dedication and progress. I have a strong foundation in building responsive, user-friendly web pages using HTML, CSS, JavaScript, and React. I have also worked with backend services, integrating frontend pages with RESTful Web APIs and managing data storage through MongoDB for small web applications.

Collaborating with cross-functional teams, I helped create clean, easy-to-use web designs while addressing performance and layout issues to enhance user experience. My ability to troubleshoot and improve web applications, combined with my active participation in team meetings and code discussions, has helped me continuously improve my coding skills and stay aligned with industry best practices.
